

Try It! Customize Your Web Page's Colors

[Practice with Lab Sandbox](#)

A PDF copy of this and other exercises can be found in the **Resources** tab.

Feel free to customize the colors of your "My Interests" web page by using a color picker, like this one:

https://developer.mozilla.org/en-US/docs/Web/CSS/CSS_Colors/Color_picker_tool

Here is another color picker tool you can use: http://www.w3schools.com/colors/colors_picker.asp

Pick a Color:

Or Enter a Color:

Selected Color:

Black Text
 Shadow
 White Text
 Shadow

#3f3bf
 rgb(63, 63, 191)
 hsl(240, 50%, 50%)

Lighter / Darker:

100%	#ffffff
95%	#ececfc
90%	#d9d9f2
85%	#c6c6ec
80%	#b3b3e6
75%	#9f9fdf
70%	#8c8cd9
65%	#7979d2
60%	#6666cc
55%	#5353c6
50%	#3f3fbf
45%	#3939ac
40%	#333399
35%	#2d2d86
30%	#262673

Once you find a color you like, copy the six-digit hexadecimal number to use the color in your web page. Make sure you copy the pound sign as well, so that your CSS looks like this:

```
1 color: #3F3FBF;
```

Once you are done, don't forget to follow the discussion prompt and share your work with others!
