

Solution: Booking a table on the Little Lemon website

The following screens are possible solutions and the design proposed may vary. However, they do need to contain the required elements described for each screen.

Screen 1: Home screen

This screen was provided to you as a Figma file in your assignment.

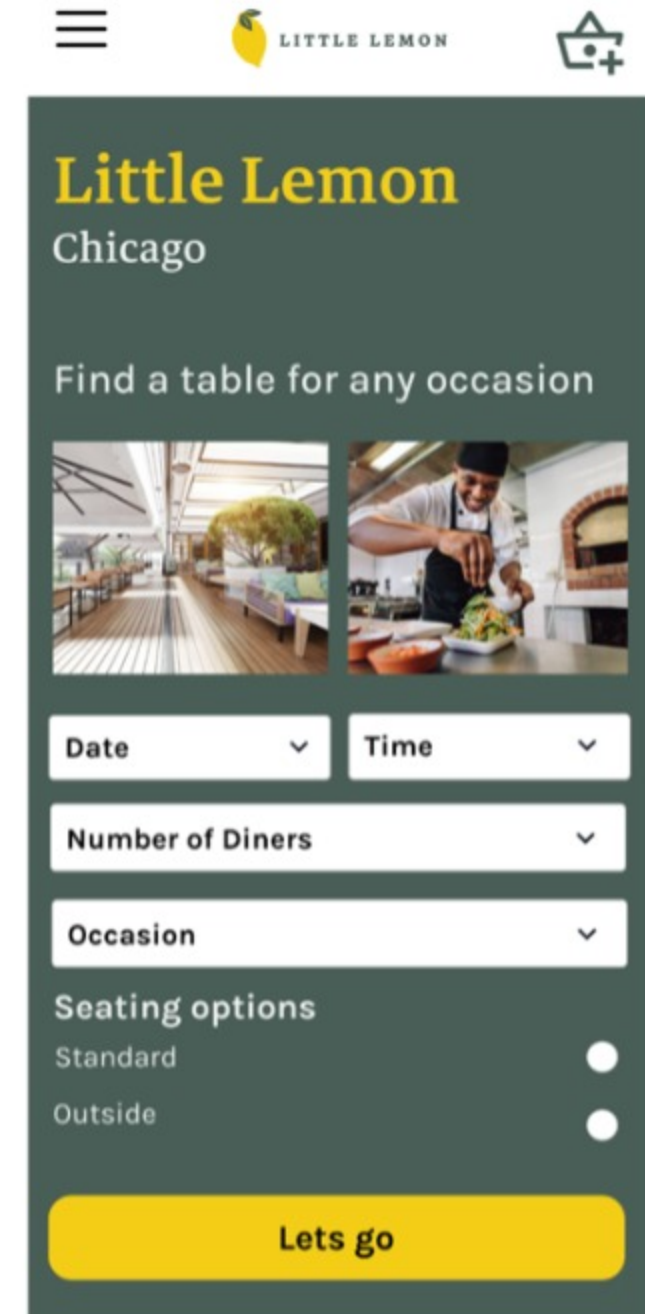

Your solution needs to link the **Reserve a table** button to your next screen.

Screen 2: Table reservation screen

This screen needs to feature:

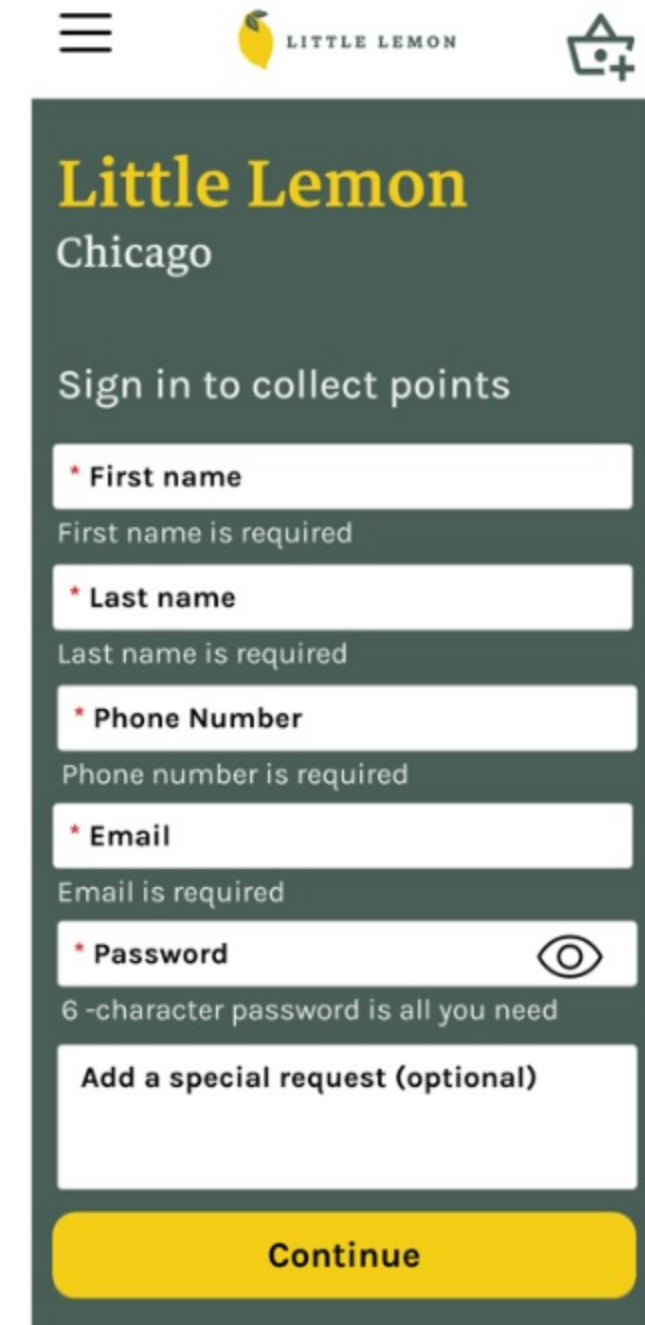

- An element to input the date
- An element to input the time
- An element to input the number of diners
- A button to link to the next screen
- The look and feel of the Little Lemon restaurant brand as per the style guide provided

Screen 3: Customer details screen

This screen needs to capture the customer details:

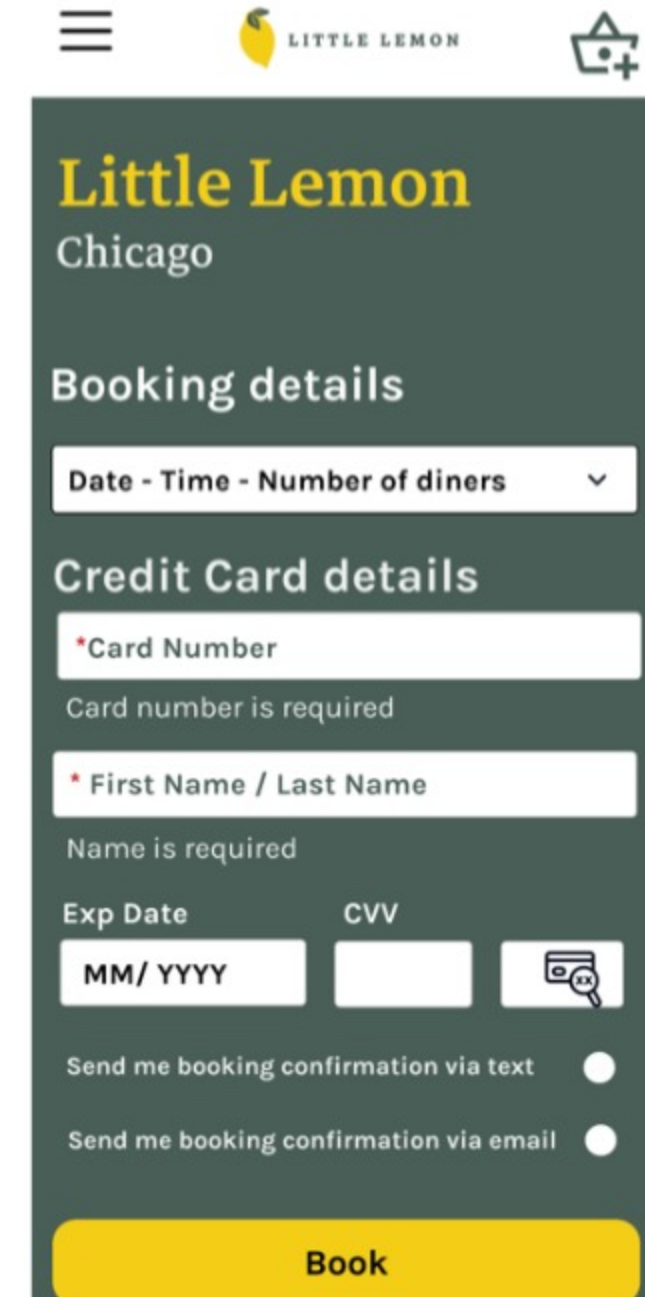

- Customer's first and last name
- Contact information such as phone or email
- Indicate required fields
- A button to confirm or submit the customer information
- The look and feel of the Little Lemon restaurant brand as per the style guide provided

Screen 4 (optional): Payment screen (to secure your reservation)

This screen is optional. You can use it as a reference if you created a payment method screen. It should contain the following details:

- Credit card number
- Customer's first and last name
- Indicate required fields
- Credit card expiration date
- Credit card CVV
- A place to indicate where the customer's credit card CVV is located
- A button to confirm or submit your reservation
- The look and feel of the Little Lemon restaurant brand as per the style guide provided.

Make sure to check that the screens you are reviewing contain the required elements as described in each one of them.

Good luck!
